

We need peace at home after working all day. We need it to spend with our families. I used to get phone calls from telemarketers from 5pm until 9:30pm every night, and all day Saturday and Sunday!!! It's been a blessing since I signed up for this program!! I certainly hope this is not changed. If I need to do business with a company, I will call them. I do Not want them to call my home!!!!
